Motorstep has been such a great help in my home, I have a large step between my kitchen and living room and being an old house there was not enough room for a ramp. Motorstep is so easy to use and it's allowed me to stay in my home without costly building work.

MRS HARRIS, WINCHESTER

My Husband has been struggling for years with the steps into our static home and it got to the point where he no longer wanted to go out when we visited on holiday. We looked into having a ramp fitted but the cost was so expensive, My husband finds Motorstep so easy to use. I would recommend a Motorstep to anyone who has a problem with the step into the home

MRS GILROY, CHICHESTER
